ShadowBAK
wash coat®
Non-Reflective Disappearing Wash Coat

Found on the Interior of Senox Painted Aluminum Gutters

ShadowBAK® is a washcoat specially formulated by Senox that gives the inside of the gutter a non-reflective finish. The anodized bronze appearance provides the vanishing properties of a black shadow and erases the transition lines from the gutter to the roof.

GUTTER BUMPERS FOR K-STYLE

Compared to traditional gutter wedges, Senox Gutter Bumpers are faster & more cost effective- and with premarked lines, cutting accurately is easier than ever. All our bumpers feature ribs to provide extra strength and the SB bumper also fits 5", 6", & 7" K-Style gutters, unlike traditional wedges which you buy to size.

Gutter Bumper® SB

100 pcs/box
part # 2928150XXX

the Complete Boxer™ Style Gutter System

Now Available!
Exclusively from

SENOX®

The new 6" Boxer™ machine is now in stock, and provides a number of features such as the exclusive z"Pocket Lock" lip, 90° strengthening cutout, & Leaf Rib Roller. Pair with Senox Boxer™ End Caps to produce the ultimate box-style gutter!

6" Boxer

(base machine w/ dongle & rib roller)
part # 8180160251

6" Boxer

Height: 17"

Width: 24"

Length: 139.75"

Weight: 1200 lbs (base machine)

The new Leaf Rib feature allows you to add a strengthening rib to the bottom of the gutter, making oilcanning a thing of the past. Adding the rib is like increasing the material thickness without requiring any additional material, creating a stronger profile for the same cost!

Boxer Front Pull Guillotine

6" Boxer

part # 8180300261

Boxer End Plate (No Shear)

6" Boxer

part # 8180350261

part # 811190001

1. The front lip and associated hangers are available in K-Style (K-STYLE), Pocket Lock Lip (PLL), and Reverse Bead Half Round (RBHR).

2. The face and bottom are available in Ogee (OG), Flat Face (FF), and Half Round (HR).

3. The back and gutter bumpers are available in Straight Back (SB), Straight Back High/Low (SBHL), Half Round Reverse Bead (HR), Half Round Wedger (HW), and Half Round High Back (HH).

The major discrepancy in everyone's mind is centered around OG vs. K-Style. Our opinion is OG speaks to the shape of the gutter face. This shape has been around since the Greeks. K-Style describes the hanger style and front lip design on the top of the OG shape. Over time the K-Style front lip and the OG shape have become synonymous in people's minds. Because of the new styles of front lips and hangers, this thinking needs to be separated to allow us to describe them separately. Our additional designs for the back of the gutter also call for more precise definitions.
